WORK EXPERIENCE

- *04/2022 – 12/2022*

  Role: Done course as a full stack developer at **Digikull Education Pvt Ltd**.

  Task:
  - Todo app: In this app we can add any task along with description. Also, we have to set the date of the task. If the task is completed on time that is before date, then blue border will be shown & when we clicked on checkbox it represents task is completed. If the date is passed beyond the date set then it will show the message the due date is passed & it will display yellow border. Also, we can add any number of tasks. Link.

  - Thali app: In this app we are getting option to add at least 2 items to the cart as mentioned in the website. Total amount will be shown according to the items added & when we proceed to payment it is giving popup message that bill amount is paid. We can remove items in the thali as per wish & accordingly amount will be updated. Link.

- *02/2023 – 08/2023*

  Role: Worked as a trainee software developer at **Sakshi Infotech Solutions Pvt Ltd**.

  Task: Worked on hospital management website project based on both frontend and backend part.
